

AMENDMENTS TO THE CLAIMS

Please amend the claims as follows. The claim listing below replaces any previous claims.

Claim 1. (Currently amended) A medicine organizer device comprising:

A holding device for a plurality of medicine containers to be arranged in a sequential order, said holding device further being in a form of a briefcase;

~~A labeling system for said medicine containers; and~~

a plurality of containers having a cap covering an opening, said containers being capable of holding an one time medication portion of a user, said ~~wherein said containers being further~~ are attached right side up to said holding device when containing the one time medication portion, said containers being attached right side down to said holding device when empty, said opening being sized so that it can be placed fully in between lips of the user to ingest the one time medication portion by tilting the container, allowing each individual container to extend and its top to reach the user's mouth, therein ~~thereby~~ eliminating the risk of dropping or spilling the one time medication portion placed inside said container;

and a labeling system enabling recognition of each container arranged in the device.

Claim 2. (Canceled)

Claim 3. (Canceled)

Claim 4. (Canceled)

Claim 5. The medicine organizer device claimed in Claim 1 wherein the medicine containers are bottles.
